(Scripps-McRae Dispatch.)
CHICAGO, April 29.—President Roosevelt may be appealed to end the teamsters' strike which now threatens to assume proportions dangerous to the peace and business interests of Chicago. A resolution asking the president step in and force the employers to arbitrate the issue now being fought and thus avert the necessity of bringing federal troops to Chicago will be introduced at a special meeting of the Chicago Federation of Labor tomorrow.
The petition to the president may be presented to him upon his expected arrival in Chicago next week. Business men not directly involved in the strike will probably be asked to join in the appeal to the president.
If this course is not decided upon it is said the meeting tomorrow will result in laying plans for general labor struggle which will involve all unions that can be drawn into the strike.
Meanwhile both sides are preparing to continue the struggle today.
Manager Reed, of the employers' teaming company has seven hundred wagons in readiness to handle whatever business is offered and will make a test of the efficacy of the federal injunction issued yesterday to protect the employers in their efforts to haul goods through the streets.
No troops have been sent yet from Fort Sheridan although four hundred regulars are there ready for immediate service. If the troops are sent for they will be used first to insure the prompt handling of government money between railway depots and the treasury.
CHICAGO, April 29.—Dry goods houses and express companies delivered goods to all parts of the city and suburbs during Friday night free from interference and with little police protection. In the downtown district the express wagons had heavy police guards but there was no attempt at violence.
Serious Shooting Affrays.
Two wagons and an escort of troops have been ordered from Fort Sheridan to haul government bullion between the railroads and treasury.
Caravan wagons, en route to the Farwell company without police escort, were attacked at Franklin and Madison streets.
The non-union drivers fired on the crowd indiscriminately. Chas. Lindinsky, a spectator, was shot behind the ear, and seriously wounded. The police arrived, dispersed the crowd and arrested several negro strike breakers. A few minutes later a crowd of two thousand attempted to lynch Roy Youngblood, colored, but he was rescued by the police.
The stock yard teamsters will notify their employers they will not deliver goods to the boycotted firms and the extension of the strike to the stock yards now seems inevitable.
Packers Join Strike.
The packers today delivered an ultimatum to their teamsters that they must deliver goods to boycotted firms or be discharged. This practically means the extension of the strike to the stock yards, involving twenty-five hundred additional teamsters.
Tie Up Coal Supply.
The shutting off of the Chicago coal supply will be the policy of the strike leaders who believe the best way to win the struggle. Carefully laid plans have been made to tie up deliveries of coal all over the city.
Union Men Beaten.
Disturbances began early today. Inor Mulcahy was attacked by a non-

ONCE WORTH \$25,000, RE-

Strange Story of Career of Earl Olson
Who is Sent to Relatives by
Charities

Earl Olson, after struggling five years in the Klondike and winning a fortune of \$25,000, penniless and sick from five bullet wounds, given him by highwaymen, who robbed him of his money, as he was bound for the United States. He was placed on a train at St. Paul last night for Onalaska, where he has relatives who will care for him.
Olson went to the Klondike from New York. At Skagway he met a man with whom he cast his lot, and, after hard work, they were successful. Olson's partner gathered in \$100,000.
Attacked and Robbed.
They were attacked by highwaymen on the plains, and Olson's partner was killed. Olson himself was shot five times, and was left for dead. All their money was taken.
Olson spent 22 months in the hospital at Seattle, went to St. Paul, applied to the Salvation Army there, and was sent to Minneapolis. He was given a position as janitor, but his eyesight was so poor that he could not hold the place.
Olson is despondent and says he is the unluckiest man in the world. He laments that he was not killed by one of the five bullets.

FIRST DAY OF BIG
POEHLING SALE
A JAM

THRONGS WILL
ATTEND TONIGHT

This has been a busy day at the J. J. Poehling store. The sale promises to be one of the most active ever held here. The quantity of merchandise that is moving is marvelous, and patrons of the store are delighted with the bargains that are being offered.
When the store opened this forenoon, after being closed for three days, expectant crowds of women lined the sidewalk on either side of the street. There was a lively jam when the doors were thrown back, which was followed by a rush of buying that kept up steadily throughout the day.
People were immensely pleased with what they found in the big store. All the merchandise was distributed in a manner handy for disposal and inspection, and prices were everywhere indicated by placards. This arrangement facilitated sales, and an immense amount of goods was handled without confusion or annoyance. Buyers grew excited at times, but le-

NEW THEATER
RUMORS

Today indications point persistently at a rival theatre, to be in the Minneapolis and Chicago class.
The new building is planned as a noble structure, to be built on the best vacant site in La Crosse, and to combine the attractions of the metropolitan office, store and theatre block.
Rumors are thick in the air today, and it is known that the wires have been kept hot for many hours. The site has been covered with an option, and the affair has simmered down to a discussion of plans and methods. Men widely familiar with the theatre business are interested, and if the thing goes through there will be no time lost in a whirlwind campaign of building. Outside capital is largely interested.
A great deal of the talk centers around Punch Robertson, who is whispered of as the La Crosse director of the scheme. This morning Mr. Robertson laughed when interviewed on the subject, but when further confirmation caused a second interview this afternoon he was found to take matters more seriously. "My lips are sealed," was his reply, and it was evident that Mr. Robertson could have told considerable had he chosen to do so.

Amplification is Opposed

Des Moines, Ia., April 29.—Lieutenant Governor Curtis Guild, of Massachusetts, aroused cheers of more than 200 guests of the Grant club at its annual dinner when he attacked the modern interpretation of the Monroe doctrine which holds that the United States must protect, by force if need be, all America against European creditors. He declared that Grant originally pointed out the weakness of such interpretation of the doctrine, and that his wisdom is being vindicated. He added: "We cannot afford to be the outside sentinel of political faro banks in which the stakes are national bonds and the dealers the mushroom presidents of irresponsible republics."

vel headed clerks cleared the way and met all the demands of crowding patrons within a reasonable time. The result was that, notwithstanding the crush, none of the shoppers was long delayed and good nature prevailed throughout the day.

"I am thoroughly pleased with the attendance," said Mr. Poehling this afternoon. "I am particularly gratified over the courtesy and good nature of our customers under trying circumstances." Manager Martin said: "It's a great sale; things are going the smoothest, the crowds considered, that I ever knew them to go in an event of this importance. The people seem pleased with what we are putting before them, and when the people are pleased, we are pleased."

The sale will continue this evening and Monday, when the rush of this morning will probably be repeated with interest. The management regretted the cold weather this morning, but this afternoon they regard it for the best, as what few people were kept at home because of it will come later, and the crowd was as large as could have been handled with convenience.

Many persons have begun to make applications for free bridge passes. These will not be issued by the board of public works until May 15. Robert P. Schuld who is at the St. Francis hospital where he recently underwent an operation, is improving rapidly.

QUEEN OF ACTRESSES PRAISES PE-RU-NA.

MISS JULIA MARLOWE

Heartily Approves of Peruna For the Nerves.

In a recent letter to The Peruna Medicine Co., Miss Julia Marlowe, of New York City, writes the following:

"I am glad to write my endorsement of the great remedy, Peruna, as a nerve tonic. I do so most heartily."—Julia Marlowe.

Nervousness is very common among women. This condition is due to anemic nerve centers. The nerve centers are the reservoirs of nervous vitality. These centers become bloodless for want of proper nutrition. This is especially true in the spring season. Every spring a host of invalids are produced as the direct result of weak nerves. This can be easily obviated by using Peruna. Peruna strikes at the root of the difficulty by correcting the digestion.

Digestion furnishes nutrition for the nerve centers. Properly digested food furnishes these reservoirs of life with vitality which leads to strong, steady nerves, and thus nourishes life. Peruna is in great favor among women, especially those who have vocations that are trying to the nerves. Peruna furnishes the lasting vigor for the nerves that such people need. Thousands of testimonials from women in all parts of the United States are being received every year. Such unsolicited evidence surely proves that Peruna is without an equal as a nerve tonic and a vital invigorator.

Buy a bottle of Peruna to-day. If you do not receive all the benefits from Peruna that you expected, write to Dr. S. B. Hartman, Columbus, Ohio.

LOW WATER MAY INTERFERE WITH BIG RIVER PACKETS

The Mississippi still continues to drop. The water is lower than the average low water mark, and there are fair prospects for a steady drop for several days yet. The stage of water today registered 4.3 feet. Speaking of the situation and prospects for very low water here, an old riverman said that if the present drop continues another week navigation at La Crosse will be extremely difficult and will be practically prohibitory to the larger vessels.

Concerning the up river packets which are due here very soon, the captain said that unless there is a rise they will not be able to reach St. Paul without having serious trouble with sand bars and shoals.

Between La Crosse and Trempealeau, one of the most dangerous passages in the Mississippi in low water, there are now more dry places and bars than in the last five years. It is feared that in case the drop continues this may become the head of navigation for the larger boats.

BIG POEHLING SALE.

The J. J. Poehling store was the scene of great activity today. For three days the store has been closed to allow the goods to be gotten in readiness and marked down to the lowest possible price in anticipation of the stupendous sale which is now taking place. Long before the opening hour the street was thronged with people eagerly watching their chance to be the first in. Dana's orchestra was in attendance "discussing sweet music" while the bargain hunters tumbled over one another in their haste to secure coveted prizes. This is a rare opportunity to secure the very latest and most desirable goods at your own price.

TEAS.

Among the beautiful surroundings none attracted more attention and admiration than a four panel Japanese screen. Upon each panel was a pelican done in the most exquisite silk embroidery. THE "OTHER SIDE," AND ALL SIDES.

A Milwaukee gentleman thinks that adverse criticism of Frank Bigelow, the bank president who found use for some \$4,000,000 of other people's money, is very ungentlemanly and unkind. This gentleman's name is James C. Pollard, and he heads his communication to a Milwaukee paper, "The Other Side of the Bigelow Affair."

Mr. Pollard is no timid champion; it takes nerve to defend a man who has done what Mr. Bigelow has done. To substantiate his views, Mr. Pollard says in part:

"I know positively that Frank G. Bigelow was the friend of dozens of young men to whom they owe their success. A Jewish friend said to me two years ago: 'No young man of push and honesty need lack funds in this city. All he need do is to go to Frank Bigelow and he will start him.'"

"His personal charities were large and constant, and we cannot allow a riot of words when his fate is in the balance. Give him the benefit of fair play, remembering the temptations always before him. Speculation is the ruling passion of the American and must be watched and guarded against."

Two things are suggested by Mr. Pollard's statement, neither of which is to Mr. Bigelow's credit. One is that Bigelow's generosity to loan seekers may have been easy to a man who would risk other people's money in a wild stock gamble. To such a man the loaning of depositors' money to people irresponsible even if in most cases honest, must have appeared as the height of conservatism compared with his own recklessness in jeopardizing it in the most uncertain game of chance that is played in this country of daring speculations. The other is that the charities which Mr. Pollard places to Mr. Bigelow's credit may have been at the expense of the same confiding people at whose cost Mr. Bigelow operated his disastrous stock deals. To the dishonest man there might be nothing wrong in giving freely of other people's money. In fact 'twere better that it had all gone this way.

In contrast with Mr. Pollard's defense of the "busted" banker, is the view of an editor who wants men like Mr. Bigelow hung. That individual thinks that a few hangings of this sort would put a stop to the hazardous handling of trust funds by financiers of the "franzied" sort. This is drastic, but not entirely illogical. It is probable that civilization would rebel at so severe measures, but that they would have a wholesome effect is pretty certain, and it is not at all positive that the end does not warrant the means. Wendell Phillips, lecturing on China, said that in China the defaulting banker is beheaded. And he adds, "There are no bank failures in China."

While it is true that this latter view is, to Americans, unconscionable, it is equally true that Mr. Pollard is too mild. We do not know him, but his line of talk leads to the conclusion that he is a strong personal friend of Frank Bigelow. His loyalty we admire, but his logic is faulty and his charity is misplaced.

The President Addressing the People in front of the Court House—Louisville, Ky.

LABOR SITUATION IN CHICAGO INTENSE WORST SORT OF TROUBLE FEARED

Chicago, April 29.—An injunction, sweeping and direct in its nature, has just been granted by Judge Kohlsaat, of the United States circuit court, against all labor unions and others, restraining them from interfering in any way with the operations of the Employers' Teaming company.

This action places the employers under the protection of the federal government. One hundred defendants are specifically named in the writ, including the teamsters' joint council. The order is a temporary one, returnable May 10, when the labor people will be called on to show why it should not be made permanent.

Three Thousand on Strike.
Chicago, April 29.—Three thousand teamsters are now on strike, including the retail drivers for the chief State street and Wabash avenue department stores. A further extension of the strike to many retail and wholesale firms is expected before night. Within the next two days practically all teaming in Chicago may be paralyzed, with many thousand drivers out.

Members of Militia Notified.
The members of the Chicago regiments of the Illinois National Guard have been informally notified to hold themselves in readiness for a call to arms. The notices were sent out by the colonels and captains.

The situation among the railway express companies is grave. It is admitted that the express drivers' strike may be the pivot on which hang government interference. The express companies promise vigorous measures in the effort to carry on their business. It was announced during the day that caravans of express wagons would be sent out, guarded by wagons containing men armed with rifles.

Threatens To Be Serious.
The most important feature of the morning's developments was the strike of 400 coal wagon drivers for the Peabody Coal company. Business Agent Barry ordered the strike at dawn, and the teamsters who had loaded their wagons deserted at once.

The coal strike threatens to be one of the most serious elements in the trouble. It will spread as fast as attempts are made to deliver coal to the firms involved. The Peabody company's yards are heavily picketed, and the leaders have issued orders not to permit any wagons to leave with coal. A complete tie-up of the coal business of Chicago is feared.

Car Line From Kenosha to Milwaukee.
KENOSHA, Wis., April 29.—Bion J. Arnold, president of the Kenosha Electric railway company, has opened the way for completion of the interurban service between Kenosha and Milwaukee, and in an open letter to the people of Kenosha states that he is willing to meet any interurban company half way in forming a connection in the city of Kenosha.

For the past six years the cars of the Milwaukee and Racine lines have been stopped at the northern limits of Kenosha on account of the fact that it was impossible for the officers of the Milwaukee company and the local company to make a traffic agreement in regard to the carriage

of passengers. In regard to the fight which has been on in Kenosha for the past few days, Mr. Arnold states that he is willing to meet the council half way.

Vote Goes Against Judge Hooker

Albany, N. Y., April 29.—The assembly judiciary committee took its first test vote on the question of the removal of Supreme Court Justice Hooker, on the basis of findings of the committee regarding as sustaining charges of improper relations with appointments and rental transactions in connection with the postoffices at Fredonia and Dunkirk.

Nothing was made public about the vote, but it was learned on good authority that the result was unfavorable to Justice Hooker, the vote being understood to be 9 to 2 upon an important constitutional aspect of possible removal proceedings before the legislature.

LABOR DISPUTES SCARCE

New York, April 29.—R. G. Dun & Co.'s Weekly Review of Trade says: Business broadens in a wholesome manner, and the most encouraging indication regarding the future in the scarcity of labor disputes. These controversies are usually most numerous on May 1, but this year no serious trouble is threatened, and one beneficial result is the expanding activity in the building trades. Jobbers have experienced a good spring trade, and manufacturers are now receiving large contracts for fall shipment.

Activity at the interior is evidenced by the increased transfers of silver dollars and subsidiary silver by the treasury, crop prospects being well maintained, despite excessive cold in a few sections. Railway traffic continues very heavy, earnings for April thus far exceeding the same period last year by 10.7 per cent. Current conditions and prospects for the future are both extremely satisfactory in the iron and steel industry.

Failures this week numbered 204 in the United States, against 202 last year, and 15 in Canada, compared with 16 a year ago.

REAL WAR ON IN ARABIA

Hodeida, Yemen Province, Arabia, April 29.—Sanaa, the capital city of Yemen province, capitulated to the insurgents the night of April 20. The revolutionists are now proceeding to besiege Manakha. The latter has a garrison of 5,000 men, but the troops are mutinous.

Jews who left Sanaa before the surrender and who have arrived at Hodeida say the town was subjected to constant night attacks, the garrison was hard pressed and provisions were exhausted. The scene of the fight of March 30 southward of Sanaa, when the Syrian reserves went to the relief of Sanaa and were crushingly defeated, was strewn with dead soldiers and animals.

Constantinople, April 29.—Advices received here from Hodeida say the revolutionists have surrounded the town of Manakha, an important strategic position between Hodeida and Sanaa. Disturbances have broken out among the Turkish troops at Medina because the only food the men received for four days consisted of biscuits.

GAS EXPLODES IN HOME OF MILLER, WRECKING ROOMS

Incorrect Installation of Gas Stove by Lighting Trust Causes Bad Accident

An accident which almost resulted in the death of an employee of the La Crosse Gas & Electric company, and which practically wrecked the home of James Miller, occurred at 709 South Seventh street yesterday.

The lighting monopoly, since the new light proposition has become a reality is straining every nerve to push its gas business, thinking to install gas and gas stoves before the new company gets into operation and that in this line they will have no competition. Along South Seventh street there has been great activity by the monopoly, a large number of men being employed to lay pipes and connect up the homes of taxpayers.

It is charged by residents of the vicinity that the company is so anxious to get the work pushed to the limit before the new company gets started that large numbers of inexperienced men are being employed to install stoves and make connections.

It is stated that at the home of Mr. Miller yesterday afternoon the stove was put in and connections apparently made. The gas was turned on in

the cellar, but through some mistake, it was not connected with the stove at all. When the job was thought to be completed the employee attempted to light the stove and when it would not work went to the basement to investigate. Meanwhile the escaping gas had filled the cellar and had filled the space between the walls of the house, working up between the plaster. When the employee went into the basement and struck a match near the meter there was an explosion which practically wrecked the rear of the Miller home. The plaster was torn from the walls of the dining room and kitchen by the force of the explosion. A large amount of glassware, etc., in the sideboard in the dining room was broken and the house presented a sorry appearance. Fortunately Mrs. Miller and her child were in the yard at the time of the explosion and were not injured.

It is not thought the employee of the lighting company was seriously hurt, though he was burned somewhat. His name is not disclosed. The youth was about 21 years old.

GALESVILLE CITIZENS ARE FLOCKING TOWARD SOUTH

Large Party Will Leave to Take up Land in Southern States in a Short Time

(Special Tribune Dispatch.)

Galesville, Wis., April 29.—Southern lands are interesting a lot of people in Trempealeau county, and it is not unlikely that North Carolina and Virginia will have several colonies from this and adjoining counties before another year. Some have already moved to these states, and the glowing tales they send from south of Dixie line are exciting the interest of others who desire to better their condition. The success that F. G. Davis, of this city, has made on an old plantation is of particular interest. Mr. Davis was struck with the many advantages of the south while on a pleasure trip. He priced the land and was surprised at the low value placed on it. He bought an old place containing several hundred acres of land and sent a northern man and his family to live on it. Later on he sent down two more good farm hands, and

the old place was farmed according to northern ideas. The southerners were astounded at the methods employed. They had for decades scraped over the land with plows drawn by a single ox. The furrows turned were about five inches in width, and they plowed after any old fashion—that is the negroes did, for the white man never lent his hand to the plow. Davis installed gang plows and turned over more ground in a day than the natives did in a week. He grew crops that they said could not be raised, and instead of taking off one crop a year he harvested two.

The man from Galesville has proved that all the trouble with the south is that the people down that way either don't know how, or will not farm right. His chief man on the old plantation was so delighted with the country that he had found something better than the west, and since that time a dozen farmers from this and Jackson counties have bought farms in northern North Carolina and southern Virginia. It was purely an experiment with Mr. Davis, but it proved a profitable one.

PARISHERS GRANT FAVILLE TRIP TO EUROPE

EXPENSES TO BE PAID BY CHURCH

The Rev. Dr. Henry Faville of the First Congregational church has been granted a two months' vacation, and a trip to Europe at the expense of his parishioners. The action of the church was decided upon at a meeting of the trustees held Thursday evening.

The announcement that a vacation had been granted him, and that his parishioners had presented him with a check with which to defray expenses of his trip came as a great surprise to the pastor.

Rev. Faville has been the pastor of the church for a great many years and this is the first extended vacation which he has ever enjoyed.

Mr. Faville will leave in the latter part of July in company with his son, Theodore, who has received an appointment of professor of English at the Robert college, Constantinople and who will begin his duties at the college in September. This will give them sufficient time to take their European trip.

other batch of southern land seekers will leave Galesville. They will be in tow of Jerry Van Wormer, of La Crosse.

Mr. Van Wormer says that he has traveled over most of the United States and that he knows of no section of the country that offers the opportunities that the south does today. The land is rich, the climate wonderful and taxes next to nothing. Among the prominent people from this county who have visited the south since Mr. Davis engaged in farming there is Assemblyman Ekern of Whitehall. He is more than pleased with the country.

GENERAL FITZHUGH LEE SUC- CUMBS TO APOPLETIC STROKE

DEATH COMES 20 HOURS AFTER STROKE ON TRAIN

Was Foremost Son of the Old Dominion; the Funeral

Washington, April 29. — General Fitzhugh Lee, of Virginia, died at the Providence hospital in this city at 11:20 p. m. yesterday as the result of an attack of paralysis with which he was stricken at 3 a. m. yesterday while traveling by rail from Boston to Washington. At his bedside when he died were his brother, Daniel Lee, and Drs. Edie and Kean. The end came quite suddenly, and was without pain. The dead general was doing fairly well, considering the severity of the attack, until about 10 p. m. when a change came for the worse.

Doctors Had Slight Hopes.

Immediately on reaching Washington after being stricken General Lee was removed to the hospital, the gravity of the attack being such that the attending physicians thought he could receive better attention there than at any private residence. The attack resulted in paralysis of the entire left side, and by night his condition was regarded as very serious, but the attending physicians had great faith in the will and energy of the patient, and hoped it might enable him to overcome the attack. Further than this they would not venture an opinion as to the outcome of the case, except to say that they had known similar instances where the patients had practically recovered the use of their faculties.

Conscious Most of the Day.

General Lee was conscious throughout the day, and recognized those who were admitted to the sick room. While not suffering any pain the general was rather uncomfortable most of the time, his breathing being difficult and his articulation when he attempted to speak being heavy and thick. Nearly all the members of the sick man's family, including his wife, within reasonable distance of the capital will come to Washington immediately. General Lee was 68 years old.

TWELVE MINERS ARE KILLED IN AN EX- PLOSION

Dubois, Pa., April 29.—A mine disaster that occurred at Eleanora shaft killed twelve men, and one man had both legs and both arms broken, and he will probably die. The dead are: George Kirkwood, Adam Kirkwood, Joe Lonna, Frank Schrum, August Westevich, Martin Westevich, Nick Fromansky, John Fromansky, George Tansky, John Hopkins (trap boy), and two foreigners whose names could not be learned. Harry Mohny, arms and legs broken.

An examination of the bodies indicated that death had come instantly. Those that had the black dust washed from their bodies showed evidences of having been burned. There could not have been much flame, however, as the hair of the victims was not scorched. Until the official investigation has been made it cannot be said what caused the explosion. The mining officials are emphatic in the assertions that it was not caused by gas.

ALFALFA BY IRRIGATION YELLOWSTONE VALLEY, MONTANA.

There are more than 60,000 acres of land watered by irrigation ditches and peculiarly adapted to the raising of alfalfa, for sale in the Yellowstone valley west of Billings, Mont.

The soil varies from gumbo to sandy loam, and alfalfa does well on all of it. The following figures show what alfalfa will do on irrigated, as compared with common hay on un-irrigated, land.

One acre sown to alfalfa and irrigated, will produce 10,000 pounds of hay.

One acre in enclosed pasture, 500 pounds.

One acre of range averages 250 pounds. Or again:

One acre of irrigated alfalfa will feed one steer 400 days.

One acre of enclosed pasture will feed one steer 20 days.

One acre of average range will feed one steer 10 days.

Or putting it in the form of sheep, it will show as follows:

160 acres of irrigated alfalfa will maintain 1600 sheep one year.

160 acres of enclosed pasture will maintain 80 sheep one year.

And 160 acres of range will maintain 40 sheep one year.

FOGS HIDE FLEETS

London, April 29. — Three British cruisers, according to The Daily Telegraph's correspondent at Singapore, are patrolling outside the harbor there, as thick, wet weather renders the straits invisible from the roads. Weather conditions may, therefore, prevent the observation of Vice Admiral Nebogatoff's movements.

The Morning Post's Shanghai correspondent reports that Vice Admiral Rojstvensky's squadron was on Thursday off Leongsoi bay, in Hainan. No other news has reached London regarding the movements of the Russian warships.

WOMEN GOT HIS MONEY

San Francisco, April 29.—It is estimated by the experts at work upon the books of the city tax collector's office that the alleged shortage of Edward J. Smith will amount to a total of at least \$98,000. They have discovered one item of \$10,000 which had not been entered and also detected several smaller shortages.

The methods used by the tax collector to conceal his operations are declared to have been many, involving much labor on the part of the experts to trace them. The police believe that most of the money taken from the city was spent by Smith for the benefit of women friends, one of whom is alleged to have accompanied him in his flight.

The moving pictures at the Bijou Monday will tell the exciting story of the pursuit of a band of Apache bandits in the west by daring cowboy riders, their capture and the rescue of the lovely kidnapped maiden.

COUNSEL'S PLEA FOR NAN THE ONLY DEFENSE

NO EFFORT TO BE MADE TO INTRODUCE TESTIMONY

State's Case Weak and Actress Confident of Acquittal

New York, April 29.—After a day of interesting developments both the prosecution and the defense rested the case of Nan Patterson, the ex-actress indicted for the alleged murder of Caesar Young. The prosecution finished its case just before the adjournment of the court, and later Attorney O'Reilly, of counsel for Miss Patterson, notified the prosecution that his side would submit no defense and would rest on the contention that the state had failed to make out any case against the defendant. This plan had been under consideration for some days, but was only decided upon at a conference yesterday between the counsel for the defense and Nan Patterson and her aged father.

Lawyers to Begin Talking Monday.

The decision means the speedy conclusion of the young woman's third trial for the sensational tragedy on West Broadway. When the case is called Monday, to which date the trial was adjourned, Assistant District Attorney Rand will immediately begin the summing up of the case of the state. Besides this the succession of events which marked yesterday's proceedings included the court's denial of

a motion to dismiss the indictment, the testimony of the prisoner's sister, Mrs. J. Morgan Smith, in which she made some interesting statements, but stood on her right to refuse to answer questions on the ground that the answers might incriminate her; Rand's promise to quash the conspiracy indictments against Mrs. Smith if she would answer his questions, and the rejection again by the court of the much-quoted letter of Mrs. Smith to Young speaking of fear as to the consequences if Young did not see her sister.

Reasons Argued for Dismissal.

The contention of the defense in moving to take the case from the jury and to dismiss the indictment was that the conspiracy accusation charge had been practically abandoned; that the prosecution had failed to prove that J. Morgan Smith bought the revolver which caused Young's death; that the case was circumstantial and the testimony of Mrs. O'Hanlon, Riggins and Phelps indicated suicide rather than murder.

REPLY OF THE PROSECUTION

Substance of the Testimony That Closed the State's Case.

The prosecution replied that it had proved the fact of the crime; that the case should go to the jury on the character of the wound that could not have been self-inflicted; had proved Smith was in the Pawnbroker Stern's shop the day the revolver was bought, and that the prosecution had not expected a pawnbroker to make identifications. The court, after denying the motion to dismiss, instructed the jury that in his decision the ruling on law points should not be to the prejudice of the defendant.

Mrs. J. Morgan Smith identified a ring and bracelet as her property pawned by her husband in Pawnbroker Stern's store. Rand's effort to make her admit that they were pledged June 3 failed. Rand tried to bring out that she and her husband were in New York on June 8 last, when the prosecution was searching for them, but the witness declined to answer, on the ground that it might incriminate or degrade her. Rand repeated his promise to quash the indictment if she would answer questions. The witness said several times she would "stick" to her sister.

Mrs. Smith denied that Leslie Coggins had told her that the best thing Nan could do was to marry Matthew Trimble, of Washington. Referring to the note sent by the witness to Young, saying that unless he saw Nan she could not answer for the consequences the witness said that Miss Patterson's emotions at that time were caused by Coggins' misrepresenting Young's marriage intentions toward her. She said Nan refused to believe the story told by Coggins, and was disappointed at the postponement of her marriage to Young.

The witness said, however, that her sister had said nothing of her "future intentions," nor what she would do, and that Nan was not responsible for the much-quoted letter. The witness said the letter represented her own state of mind, but did not answer whether it represented the defendant's. The court again refused to admit in evidence this intercepted letter. Rand asked numerous questions tending to show the Smiths were fleeing from

CHICAGO'S "MUNICIPAL OWNERSHIP" MAYOR

Stern during the disappearance from New York, but the witness declined to answer that they left any cities on his account, though she admitted that she had heard he was in one of the cities which they left suddenly.

Paderewski Strains a Cord in Neck Playing on Piano

Niagara Falls, N. Y., April 29.—Paderewski, the pianist, is suffering from neuritis and has canceled all engagements. Paderewski has left for Boston. At London, Ont., he strained a cord in his neck while rendering a difficult composition, and his condition became such that Dr. Francis Fronczak, of Buffalo, was called, and upon his advice Paderewski canceled all the remaining engagements of his tour in this country.

Dr. Fronczak's diagnosis of Paderewski's ailment was that he is suffering from a severe attack of neuritis.

N. B.--RAILROAD FARE PAID TO PURCHASERS OF \$25.00 OR MORE FOR A RADIUS OF 25 MILES

LAREDO, TEXAS, DESTROYED BY CYCLONE

(Scripps-McRae Dispatch.)
AUSTIN, Tex., April 29.—The county seat of Webster county on the Rio Grande was wiped out by a cyclone last night. It is reported fifty were killed and many injured. Many buildings were destroyed.

Goodrich Co's. Clerk Accused of Small Embezzlement

MILWAUKEE, April 29.—Richard J. Shaughnessy, a clerk in the offices of the Goodrich Transportation company, was arrested yesterday afternoon on a warrant charging him with the embezzlement of \$40 from the company. The complaint was sworn to by Duncan McMillan, agent of the company here.

Shaughnessy had been "over and short" clerk for the company for about three years, and up to this time has been a trusted employee. He had charge of the goods which went as-

tray in transit, looking them up and seeing that they were properly accounted for.

Some time ago a shipper was advised that a shipment of leather was short one bundle. He could not account for it in any way except that it was lost on the way to the dock from his wagon. A few days ago a horse collar maker was offered a bundle of leather by Shaughnessy, and he became suspicious because it was offered nearly to cents below the legitimate market price. Investigation followed which resulted in the arrest of the clerk.

Investigation following the first disclosure revealed several other cases similar, but Agent Duncan McMillan said that the total value of the articles alleged to have been taken by Shaughnessy would not be over \$100.

Shaughnessy is 37 years old, married, and with his wife and three children resides at 507 Sycamore street.

The tinner who now receive a minimum wage of 27 cents an hour and a maximum of 35 cents with a nine hour day want an increase of 10 cent and an eight hour day.

MADISON, Wis., April 29.—A new corrupt practice act will be recommended for passage today by the assembly committee on privileges and elections. The bill as outlined and agreed to by a majority of the committee provides that no elective officer can qualify until he has filed a statement of his election expenses. It

further provides that the county clerk shall cause to be published in the newspapers a list of all candidates who have not filed their election expenses with him at the end of twenty days after election, and that the county clerk shall send a copy of the list to the district attorney and that the district attorney shall prosecute all cases so reported to him. The penalty remains the same as in the present law, a fine from \$25 to \$500.
